

Facilitator Certification  2007-2008 www.colourspectrums.com

This training program will certify you to present *ColourSpectrums*TM Workshops. *ColourSpectrums* is a personality styles human development model presented to groups in an entertaining, interactive workshop format. Carl Jung's primary psychological colours represent 4 classic areas of personality development:

- Blue** Emotional Development
- Green** Intellectual Development
- Red** Physical Development
- Yellow** Organizational Development

ColourSpectrums is a dynamic educational experience that provides insights (ah-ha! learning) and entertainment (ha-ha! learning) in an exciting process of self-discovery. Participants sort the 4 colourfully illustrated attribute cards to reveal their *ColourSpectrums*. Each colour spectrum is a particular combination of strengths and challenges that is unique to each individual.

This certification training will teach you how to present workshops in a positive educational atmosphere of fun and discovery that includes: individual reflection, paired discussions, group discussions, card sorting, word pairing, facilitator input and small group activities. You will learn how to empower participants as they actively learn, explore, reveal and celebrate their individual priorities, delights and talents while genuinely valuing the priorities, delights and talents of others. Based solidly on the works and research of Carl Jung, *ColourSpectrums* creates an enchanting user-friendly language that naturally enhances self-esteem and team-esteem while supporting diversity, pride and mutual respect.

This training program will certify you to present workshops that focus on:
